

FABRITRAK®
S Y S T E M S I N C

the visual sound solution

What is FabriTrak®?

Fabri Trak® is an exceptional fire-retardant rigid vinyl framework that provides a method for using fabric as an interior architectural finish for walls and ceilings. Fabri Trak® frameworks, known generically as “track” are manufactured from a unique blend of polymers and fire retardant additives free of Volatile Organic Compounds.

Sizes and Shapes

Fabri Trak® is available in round edge, square edge and bevel edge details in sizes ranging from 3/8 inch (10mm) to 2 inch (50 mm). Fabric is inserted into specially designed fabric-receiving jaws having serrated and meshed teeth for superior gripping and holding. To enable the designers' creativity Fabri Trak® is available with fabric insertion bottom entry, top entry, or side entry configurations.

Applications

Fabri Trak® is used as an interior architectural finish for walls and ceilings using fabric, vinyl or leather coverings. Fabri Trak® is made and designed to allow the designer's creativity to embrace virtually any wall or ceiling space or configuration. Fabri Trak® lends itself for application on undulating walls, portals or columns.
